- Solution Design & Technical Governance
- Disaster Recovery / Business Continuity
- Security-by-Design & Cyber Resilience
- RFP / RFI (Preparation, Review, Response)
- Outsourcing & Sourcing Strategy
- Data Center & Network Consolidation
- Cloud Migrations (Azure, Private/Public)

WORK HISTORY

Concept Informatiebeleid & Automatisering (Owner)
2001– present
Freelance ICT Infrastructure Architect providing solution design, infrastructure transformation, RFP support, and technical governance for enterprises and (semi-)government clients.

Komori International Europe (ICT Manager Europe)
2000
Responsible for IT strategy and operations for European subsidiaries.

Hoogovens Technical Services / Danieli-Corus (Systems Engineer / Architect)
1994 – 2000
Designed and supported IT infrastructure for large-scale engineering projects.

RECENT KEY PROJECTS

TCS / HTM (Infrastructure Solution Architect)
2024
Defined transition plan and architecture for moving HTM's existing IT infrastructure under TCS management; designed roadmap for urgent transformation of HTM's IT infrastructure to market-conform standards.

TCS RFP team (Solution Architect)
2023
Core architect in RFI/RFP bid team for Dutch (semi-)government including DNB, Kadaster and HTM; ensured complete, feasible technical solutions aligned with delivery capabilities.

T-Systems (Deal Solution Manager / Solution Architect)
2012 - 2022
- Led solution design and technical leadership across multiple strategic deals and migrations for major T-Systems clients including ProRail, Wolters Kluwer, Vion, and FrieslandCampina.
- Designed hybrid infrastructure and pricing models for multi-year outsourcing contracts.
- Delivered greenfield target architecture and stepwise migration for ProRail's 5-year hosting renewal (BBMS).
- Consolidated and modernized Vion's datacenter and legacy network infrastructure (400+ servers).
- Co-authored RFPs, contract schedules, and technical documentation for outsourcing, DR, and virtualization platforms.
- Acted as bridge between clients and delivery organization during solutioning and transition phases.

CERTIFICATES

- Microsoft Azure Fundamentals (2021)
- MCITP Windows Enterprise Administrator, MCSE (2008-2010)
- ITIL v3 Foundation (2010)
- CCNA (2010)
- Barracuda Engineer (Spam & Virus Firewall, Web-filter, SSL VPN, etc.)
